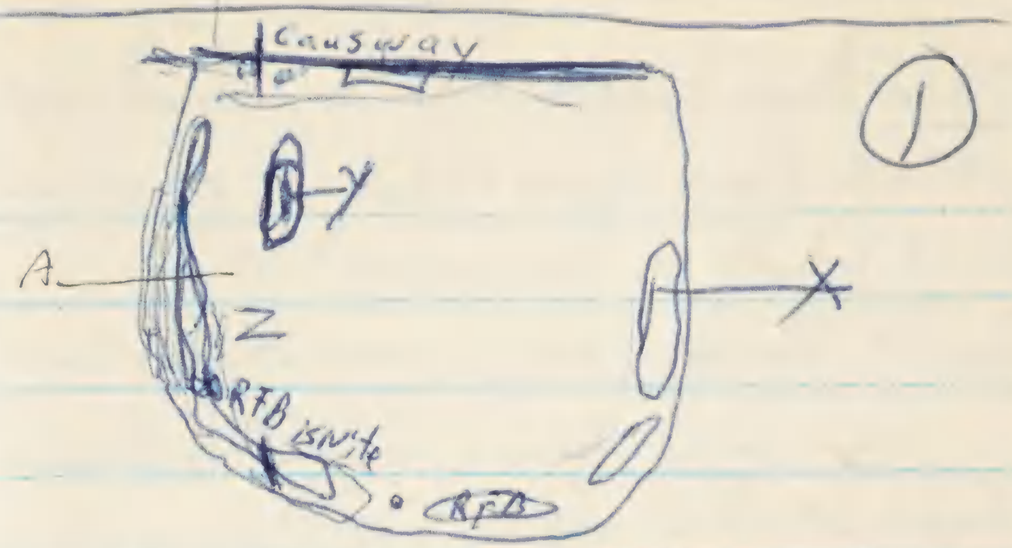
DNH Palmyra - 14 - 15 May 66



(1)

X - 4 coconut crabs, very few Boobies, G. N Terns

Y - 100± Brn Boobies, Red Footed Boobies nesting

Mower

Many mullet, sharks (Black Tips.) in backlagoon

Reef fish, puffers, sea cucumbers, Eels are plentiful.

Land crabs are very plentiful along causeway.

RFB, Brn Boobies are nesting on causeway

Gr. Frigates, CNT, FT roost on causeway.

2500±

Z - Many ~~Boobies~~ RFB nesting in trees along lagoon edge. All the way from H2O edge to very high up. Few nestlings were seen.

DAR H. (2) 15 May 66

Palmyra

Mosquitos around RFB. Hippobosids on RFB

Around area A many RFB are on nests. In the small area that we worked we banded 32 ad RFB and there were 37 nests counted. 17 nestlings were present.

Very dense vegetation on almost all of the islands On some of the real rocky islands the ground vegetation isn't very dense, but the overhead cover is.

Where there is deep H_2O next to the islands there are usually sharks. They are probably waiting for birds to fall in the water.

Frigates must be able to see fairly well at night. About 2400 on 15 May 66 a G. F. was seen chasing a RFB in the lagoon.

Most of the RFB are back on their nests by 2100.
